MAROUANE FARIS

FULLSTACK JAVASCRIPT DEVELOPER

Paris, France 75018 • +33695034839 • faris.marouane@gmail.com

PROFILE

Passionate **Fullstack JS** developer with 6+ years of experience. Specializing in **Frontend** with the **frameworks Next JS** and **React JS**. Working knowledge of **PHP**.

EXPERIENCE

Aug 2023 - May 2024

Senior Frontend Developer (Contractor)
Christian Dior Couture • Paris, FRANCE

As a Senior staff Frontend Developer within the Catalogue & Navigation team at Dior, my key responsibilities include:

- Development of new features such as a Countdown component, a subscribe & share component, as well as the development of a new product description page.
- Responsible for bug resolution and improving the accessibility of Dior's website.
- Close collaboration with multiple internal teams at Dior, requiring strong collaboration and communication skills.

This role allowed me to enhance my frontend development skills while working in a collaborative and agile environment within a globally renowned company like Dior.

Technical stack: Next JS (version 14), Typescript (Version 5), GraphQL, SCSS, Jest, Figma, Storybook, ...

May 2023 - Jul 2023

Freelance Frontend Developer
Way.co • Paris, FRANCE

Short-term freelance mission with American startup Way.co, focusing on implementing an employee dashboard in **Next JS.** Conducted 80% of communication in English.

Tasks included:

- Developing new Next JS pages to enhance the dashboard functionality.
- Creating and refining React components in alignment with provided design specifications.
- Collaborating closely with the backend (Nest JS) developer to establish or modify API routes for seamless data integration.
- Conducting rigorous testing procedures to ensure the functionality and usability of newly implemented application features.

Technical stack: Next JS, React JS, Typescript, Styled-components, Redux toolkit, Vercel, ...

Jan 2023 - May 2023

Independent Consultant (short-term missions)
Malt.fr • Paris, FRANCE

During my time as an independent consultant, I engaged in several short-term projects assisting companies in frontend web development. I specialized in leveraging the **Next JS** framework for application enhancement. Additionally, I collaborated with an agency to develop a **Progressive Web App (PWA)** for several of their clients.

Feb 2022 - Dec 2022

Lead Frontend developer and React JS Expert (Contractor)
Office français de l'immigration et de l'intégration (Governmental agency) • Paris, FRANCE

Participated as **Lead Frontend developer** contractor in a project for digitizing family reunification procedures within the French Office of Immigration and Integration.

Achievements:

- Developed dynamic form tunnels (using **react-hook-form** library) while ensuring adherence to **accessibility** criteria (RGAA norm).
- Migrated forms from **formik** library to **react-hook-form**.
- Established a design system using **Storybook**.
- Contributed to User Stories drafting.
- Ensured frontend code quality and application performance.
- Reviewed PRs related to frontend.
- Integrated **Matomo** audience analysis tool.
- Improved documentation.

Technical stack: React, Redux, Typescript, Styled-Components, Reach-UI, PHP, Symfony, Docker, PostgreSQL, GitLab.

Dec 2020 - Jan 2022

Frontend Developer (Contractor)
Ekwateur (green and renewable energy provider) • Paris, FRANCE

Projects:

• Developed a client portal for professional customers from scratch using React JS.
• Occasional interventions on other Ekwateur websites.

Achievements:

- Released the first version of the client portal approximately 7 months after joining.
- Implemented unit tests (**Jest**) and functional tests (**react-testing-library**).

- Enhanced client cache strategy, resulting in reduced application loading time.
- Collaborated with the Design team on drafting User Stories.

Technical stack: React, Typescript, Redux Toolkit, styled components, React-testing-library, GitLab, ...

Dec 2019 - Dec 2020

Frontend Developer (Contractor)
Le Figaro • Paris, FRANCE

As a member of the **video team**, I contributed to the development and deployment of the new portal built with **Next JS** (https://video.lefigaro.fr).

I developed numerous new features aimed at standardising various video players and ensuring the stability of the final product.

I also contributed to maintaining libraries responsible for displaying advertisements on the main website of the newspaper (**Native Javascript DOM manipulation**).

Technical stack: React, Next JS, Typescript, Webpack, Babel, Sass, Jest, ...

May 2018 - Dec 2019

Frontend Developer (Set Top Box)
Canal + • Issy-les-Moulineaux, PARIS

Projects:

• Canal Set Top Box (STB) (released in January 2018)
• Canal Mini STB (released in October 2019)

The Canal 4K STB integrates all the channel's services (satellite, streaming, replay, VOD), featuring a web app interface entirely developed in-house using React JS.

Achievements:

- Developed new features for the Canal STBs.
- Collaborated with Middleware and Hardware teams for development needs.
- Autonomously pair programmed with a colleague for the release of G9 Mini.
- Enhanced performance of certain app pages (e.g. using list virtualization).
- Conducted validation tests for each beta version at the end of each sprint.
- Publicly presented new features in front of an audience at the end of each sprint.

Technical stack: React, Redux, Redux-observable, Typescript, RxJs, Server Sent Events, RxPlayer (Dash library), Node Js, Jest, ...

EDUCATION

Jun 2023 - Sep 2023   Epic React course by Ken C. Dodds
epicreact.dev

Completed Epic React by Kent C. Dodds, an advanced online course designed for experienced developers. Deepened expertise in React.js, focusing on:

- Advanced state management techniques and custom hooks
- Performance optimization strategies for large-scale applications
- Implementing robust testing practices using React Testing Library
- Architecting complex, scalable React applications
- Advanced patterns for component composition and code reuse

Dec 2017 - Feb 2018   React Nanodegree
Udacity

2012 - 2016   Master In Management
ESCP Europe • Paris, FRANCE

SKILLS

Next JS, React JS, Typescript, Javascript, Redux, CSS, SCSS/SASS, Tailwind, Jest, React Testing Library, Node JS, SQL, PWA, PHP, GIT
